Disciple Makers

Well established FREE course to help initiate and encourage new growth in your congregation

Harvesters Ministries is primarily a Church Planting organization. We help churches plant churches through evangelism, discipleship and pastoral training. Over the past two decades Harvesters has helped churches plant over 60,000 new churches in over 50 countries. **In this process we have been able to help partnering churches to not only multiply, but to also grow; sometimes dramatically.** The principles we teach are basic Bible concepts applied to fulfilling the Great Commission in a practical, strategic and systematic way.

The Disciple Makers course has come about from the heart cry of many of our Hub Leaders who are involved in planting

Disciple Makers is a **seven-hour course** designed to teach interested leaders and members how to reach their communities for Christ. **In the process the church will grow numerically and in depth.** The course can be held on a Mon-Wed evening or on a Friday evening and Saturday morning. **The course is free** and participants will only need to purchase the course material at a minimal cost. **Small groups are welcome.**

Who is this for? Any church that is tired of the gimmicks; tired of trying to attract people

numerous churches: "What about my church? **How can we grow?**" As we started to apply the principles not only to start new churches, but to revitalize churches that have stagnated or begun to shrink, we have seen incredible results. The material we are offering comes out of this movement.

Pastor Hugo, whose church is in Guatemala City had shrunk to only 13 members, decided to apply the principles in his own church. He says: "I was desperate and decided to follow the book step-by-step." **Within nine months his church had reached 743 people and started 28 neighbourhood churches.** Step one was to get his current members involved.

to church and that is willing to go back to basics. The course is for leaders and members alike. **A group of ten or more is ideal to start making an impact.** Let Harvesters help you move people from converts to disciples to disciple-makers.
