GOOD NEWS

GENERAL ELECTION – OUR RESPONSIBILITIES

As Christians we have a responsibility to engage in the forthcoming General Election; to vote, to engage in campaigning if possible by joining with others in seeking candidates' views on important topics such as poverty, Rwanda, climate change, immigration and asylum laws, seeking justice and right actions to work for the common good.

Many NGOs are joining together in doing this.

JUNE 11TH INTERNATIONAL DAY OF PLAY

The average child spends 3 hours a day in play. Many children round the world are deprived of this basic right on account of war, conflict, poverty and immigration.

So the United Nations has designated this special day to highlight the importance of play, protecting and empowering children in educating, protecting and empowering them to overcome the challenges they face now and in the future.

AI AND CANCER

AI hones in on cancer lists. Game-changing AI to be rolled out in every NHS England radiotherapy department. Backed by £15.5 million in new government funding, this AI technology will reduce cancer waiting times by locating cancer cells 2.5 times quicker than doctors alone.

RENEWABLE ENERGY

Wind has overtaken gas as the main source of electricity in Britain.

We are now living in a world where clean power dominates our electricity system.

- 3: does it lead you to take any further action or share content with others?
- 4: sourcing material for content is an onerous task, have you ever sent in items for inclusion or would you be prepared to do so?
- 5: any other comments

I am aware that questionnaires are often ignored. I really would appreciate your feedback and comments.
